## Self Unloading vessel

### 12,000 tonnes self unloading vessel "Osprey" for Oldendorff

**Eide Marine Engineering BV**, delivered the basic design package for a shallow-draught self-propelled self-unloading vessel. The vessel (130 x 27.5 x 8m) has open top hopper with approx. 12 000t ore capacity.

The design is according the latest standards and regulations.
